RUTGERS UNIVERSITY HUMAN AI ROBOTICS TEAMING SPONSORSHIP

2026-2027

ABOUT US

Rutgers University Human AI Robotics Teaming (RU HART) is developing autonomous delivery robots to bring food assistance directly to students experiencing food insecurity.

OUR SOLUTION

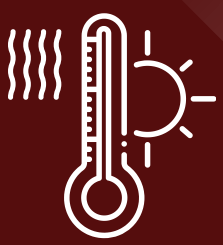

Automated delivery protects student privacy and removes the stigma often associated with seeking food assistance

24/7 delivery capability accommodates students with challenging work schedules or class conflicts

Direct-to-location delivery assists students with mobility challenges or disabilities

Temperature-controlled compartments enable the safe delivery of fresh produce and perishable goods

OUR PARTNERS

RUTGERS FOOD PANTRY

We proudly partner with the Rutgers Food Pantry, enhancing rather than replacing their essential services.

While the food pantry provides an invaluable resource through their physical location and truck delivery program, RU HART's autonomous robots complement these efforts by solving specific challenges:

- Reaching students who face barriers to accessing the physical pantry location
- Providing on-demand delivery for urgent food needs
- Maintaining cold chain integrity for perishable items during delivery
- Offering a fully private option for students concerned about visibility

SPONSORSHIP PACKAGES

BRONZE ($100-$500)	SILVER ($500-$1000)	GOLD ($1000-$1500)	PLATINUM (+$1500)
1 Social Media Post	2 Social Media Posts	3 Social Media Posts	4 Social Media Posts and Sponsor Highlight

SPONSORSHIP BENIFITS

SUPPORT STUDENT WELL-BEING

Food insecurity affects many college students and can directly impact their academic success and overall well-being. Sponsoring RU HART helps expand access to food assistance and ensures that students can receive the support they need to focus on their education.

ADVANCE INNOVATION IN AI AND ROBOTICS

RU HART is developing autonomous delivery systems that demonstrate the real-world potential of AI-driven robotics for humanitarian applications. Sponsors help accelerate the development of technologies that can improve accessibility and logistics in communities beyond the university.

INVEST IN FUTURE STEM LEADERS

RU HART is a multidisciplinary student team bringing together students from engineering, computer science, and other technical fields at Rutgers University. Sponsorship supports hands-on research and development while helping prepare the next generation of innovators and problem-solvers.

INCREASE BRAND VISIBILITY

Sponsors gain recognition through logo placement, promotional materials, and association with an innovative student research initiative at Rutgers University.

INCREASE COMMUNITY IMPACT

Supporting RU HART demonstrates a commitment to improving student well-being and addressing food insecurity through technology-driven solutions.
